

PROFESSIONAL SUMMARY

iOS Developer with **7+ years** of commercial experience building and maintaining production iOS applications in international teams. Experienced in **full-cycle development**: from product requirements to automated releases with high test coverage and detailed analytics. Strong expertise in codebase modernization, app stability, and delivering features using modern iOS technologies. Expanded beyond iOS development by building and integrating dedicated mobile backend APIs.

Founded a coding school and actively mentored junior developers through code reviews and regular knowledge-sharing sessions. Fluent in English and confident working in multicultural teams. Passionate about building independent iOS products and launching startup projects for the global [App Store](#) market.

WORK EXPERIENCE

[FGS Global](#) - Senior iOS Developer

Sep 2025 - Present

*FGS Global is the **world's #1** M&A communications advisor, supporting 527 deals worth \$1.14T in 2025*

- Owned and delivered a voice-first enterprise AI application from concept to release as the sole iOS engineer, taking full responsibility for architecture, implementation, integrations, testing, and technical decision-making, built for employees across **13** countries worldwide
- Collaborated with product leadership and key stakeholders to define requirements, prioritize scope, and validate critical product and technical decisions upfront, avoiding major rework and saving an estimated **2-3** months of development
- Engineered and launched a mobile AI chat agent with hands-free voice interaction, combining on-device speech recognition, AI responses streamed over SSE, and server-generated TTS playback, contributing to a **23.7%** increase in platform MAU
- Drove cross-functional delivery across Product, Design, Backend, and DevOps teams in multiple countries, while personally building a dedicated Next.js mobile API layer with **20+** endpoints

Technologies: Swift, UIKit, Swift Testing, MVP-C, AVFoundation, Speech Framework, SSE, Okta OIDC, Next.js

[Tele2](#) - Senior iOS Developer

Aug 2023 - Sep 2025 (2y 2m)

*Tele2 is a leading European telecommunications operator serving **7M+** mobile customers across Sweden and the Baltics*

- Delivered a "Call Recording" module with an audio player and time-synced transcription, enabling fast conversation navigation
- Built a full-featured "Ringtones" media platform with advanced browsing and system-level ringtone installation
- Integrated and launched an end-to-end loan application flow with partner banks (forms, document upload, calculations, pre-scoring), which boosted the number of issued loans by **34.6%** within two months of release
- Led modernization of the project's largest module by migrating to Swift 6, replacing XCTest with Swift Testing, and refactoring async logic to async/await, raising the crash-free rate from **90.2%** to **95.7%** while improving performance and maintainability

Technologies: Swift, UIKit, SwiftUI, Swift Testing, SPM, MVP-C, async/await, Fastlane, Swinject

[DAR](#) - Senior iOS Developer

Aug 2021 - Aug 2023 (2y 1m)

*DAR is an international technology group developing **10+** digital platforms across enterprise SaaS, education and media sectors*

- Designed and introduced advanced meeting creation and editing features, including recurring events and a custom calendar with timeline views inspired by Google Calendar. Increased the App Store rating from **4.4** to **4.6** within one month of release
- Created a reusable Swift Package with a WYSIWYG editor, centralized environment-based URL configuration across modules, reduced SPM build times from **20** to **4** minutes, and improved cold app launch time by **10** seconds

Technologies: Swift, UIKit, XCTest, SPM, MVVM-C, Fastlane, Tuist, Swinject

[Halyk Bank](#) - iOS Developer

Nov 2020 - Aug 2021 (10m)

*Halyk Bank is the largest financial services group in Central Asia with **\$45B+** in assets and **11M+** active customers*

- Redesigned and re-architected the most-used "Acquiring" module, delivering 15+ scalable and reusable production screens with seamless backend API integration and improving the crash-free user rate from **87.6%** to **94.2%**
- Mentored and coached junior iOS developers by conducting weekly training sessions and code reviews, supporting their technical development and effective onboarding

Technologies: Swift, UIKit, XCTest, SnapKit, MVVM-C, GCD, Liveness

[Tredo](#) - iOS Developer

Dec 2018 - Nov 2020 (2y)

*Tredo is an IT outsourcing company serving **15+** enterprise clients, including international startups*

- Built and released a crypto app from scratch and released it to the App Store as a solo iOS developer, including user registration, identity verification, and real-time price updates via WebSockets
- Delivered "Deposit" and "Transport Tax" features for a banking application, increasing MAU by **6.1%** and **3.2%** respectively, while improving the reliability of bank transfers and notifications

Technologies: Swift, Objective-C, UIKit, CocoaPods, MVC, VIPER, GCD, WebSocket, Combine, RxSwift, Core Data

SKILLS

iOS: Swift, SwiftUI, UIKit, Swift Concurrency (async/await, actors, GCD), Objective-C, Xcode, SPM, Combine, Core Data, RxSwift, AVFoundation, App Store Connect, TestFlight, Core Animation, Speech Framework, SpeechAnalyzer, Apple Pay (PassKit), SwiftLint, Keychain, Biometric Liveness Detection, SnapKit

Architecture, Networking & Testing: Clean Architecture, MVVM, VIPER, MVP, MVC, SOLID, Dependency Injection (Swinject), REST APIs (URLSession, Alamofire, Moya), WebSockets (Socket.IO), SSE, OAuth 2.0, OIDC, Okta, Unit Testing (XCTest, Swift Testing)

Other: CI/CD, Fastlane, Tuist, CocoaPods, Firebase (Crashlytics, Analytics), Git, Jira, TypeScript, JavaScript, Node.js, Next.js

LANGUAGES

- **Kazakh:** C2 (Proficient)
- **English:** C1 (Proficient)
- **Russian:** C2 (Proficient)
- **Turkish:** B2 (Upper-Intermediate)

EDUCATION

Suleyman Demirel University:

- Master's degree
- Faculty of Engineering and Natural Sciences
- Computer Science

Suleyman Demirel University:

- Bachelor's degree
- Faculty of Engineering and Natural Sciences
- Information Systems

Kazakh-Turkish Lyceum:

- School for gifted children
- Member of the school's Mathematical Olympiad team
